Series 1000
Wiper Controller

IDEAL FOR ALL
STRAIGHTLINE WIPER
SYSTEMS

OPTIONS

Remote CVS Controller available only in single way.

Special 2 speed controller available for high voltage DC pendulum/pantograph wiper units. Available only in single way.

Multi way units can be supplied in two, three and four ways. Individual or group options allow for either separate control switches to operate each wiper independently, or a master group control switch for all wipers.

Series 1000 controllers have group wash and heater switches.

Additional cut-out plates are available in arrays of up to seven ways for installation options.

FOR USE WITH

• Wynn Type C and D straight line wipers
• Wynn Type C350 clear view screens
• Hepworth Type 70Nm pendulum/pantograph wiper
